

Care Management Dashboard Product Update – June 2018

Based on feedback from you, we've made some modifications to the [Care Management Dashboard](#) to provide more information and simplify your experience in viewing patient data:

1. The new **Active Panel Members** tab at the top of the Dashboard screen allows you to see **all** patients on your panel, help identify those who need your help most, and even find one specific patient that you are looking for.

Care Management Clinical Dashboard | **Active Panel Members**

Report

1 - 500 out of 1067 records, Page 1 of 3

Active Panel Members as of June 15, 2018

* Asterisks next to column headings indicate information submitted by your organization.

High Risk *	MPIID	CurrentCare Status	First Name *	Middle Name *	Last Name *	Date of Birth *	Age	Gender	Six Month ED Visits	Six Month Inpatient Visits	Charlson Comorbidity Index
	111000	Enrolled	Masako		Hillyer	1988-02-09	28	F	1	1	1 (Low)
	222000	Not Enrolled	Sherlyn		Trumble	1954-04-19	62	F	90	2	3 (Moderate)
	333000	Enrolled	Tabatha		Baeza	1944-02-12	72	F	2	3	1 (Low)
Yes	444000	Not Enrolled	Ettie	M	Maslowski	1964-02-11	52	F	26	8	7 (High)

	888000	Enrolled	Paris	A	Eliason	1957-11-12	58	M	1	3	5 (High)
Yes	999000	Not Enrolled	Mckinley		Stumpff	1939-11-03	76	M	3	1	12 (High)

Screenshots contained in this document and on any training files do not contain Protected Health Information (PHI).
All data presented for training purposes has been randomly generated from databases of fictitious data.

- View all your active patients in one report
- Find one specific patient on your panel (Sort or Filter by Last Name)
- Identify which patients need your help most (Sort or Filter to view highest Charlson Comorbidity risk, or highest ED or inpatient visits)
- Easily sort this list to identify those enrolled/not enrolled in [CurrentCare](#) (Sort or Filter on CurrentCare Status)
- Update your patient phone & addresses – we show you both what was provided most recently by a hospital or skilled nursing facility, as well as the phone # and address provided by your organization (indicated with an * asterisk)

Note: This list does not include any encounter-specific data, as this is simply the list of patients that your organization identified to be included in your panel.

- Patient encounter detail reports are simplified. Click on **MPIID**, **Six Month ED Visits**, or **Six Month Inpatient Visits**. On the new drop down menu, you will now need to click “View All Encounters for ...”

We’ve improved the overall look & feel, based on your feedback:

- The Active Panel Member list, along with any reports, now include gridlines to make viewing the data a little easier;
- We’ve also removed the color green, which was used to highlight low risk levels, so you can focus on the moderate risk patients (in yellow) and high risk patients (in red).

Charlson Comorbidity Index	LACE
1 (Low)	2 (Low)
3 (Moderate)	N/A
1 (Low)	2 (Low)
7 (High)	8 (Moderate)
1 (Low)	N/A
1 (Low)	N/A
3 (Moderate)	N/A
5 (High)	6 (Moderate)
12 (High)	10 (High)
